

Our *eco-sustainable* COMMITMENTS

Located in the heart of the Iroise Marine Natural Park, our hotel is committed to preserve this *unique* environment and implementing a real strategy in terms of sustainable development.

With this in mind, We are proud to announce that the Sainte-Barbe Hôtel & Spa has been awarded the *Clé Verte* label, the first certified sustainable tourism label for hotels and restaurants, for the year 2025.

Discover now our commitments in our *environmental charter*.

Our Environmental Charter

We *educate* our teams and our guests

- Our teams are trained in eco-gestures to follow in their daily tasks
- We invite our guests to adopt eco-friendly gestures during their stay (limit changing linen, sorting waste, ...)
- Our teams are trained in eco-responsible digital practices (limiting the printing of documents, using eco-labelled paper, putting computer stations on standby, ...)

We *save* water and energy

- We read our water and electricity meters every month to better manage our consumption
- All of our lighting is in LED which allows energy savings and similar comfort for our customers
- We have installed occupancy sensors/timers in common areas/corridors to limit energy waste

We *limit* and *sort* waste

- We have eliminated plastic bottles throughout the hotel and work with a majority of returnable glass bottles.
- Eco-pumps made from recycled materials are installed in all our bathrooms
- We installed underground containers to sort our waste

We are *attentive* to the well-being of our *guests*

- The dishes in our restaurant and at the breakfast are prepared with seasonal products, preferably local, organic or labeled
- The products used for the maintenance of our rooms are all eco-labeled, which offers better air quality and fewer health risks
- Our hotel is completely non-smoking

Thank you for supporting us in our *approach* by adopting its eco-friendly gestures during your stay

Save electricity

- Remember to turn off the TV and lamps when you leave your room.
- Remember to unplug your chargers and plugs once your devices are charged or when you leave the room.
- Close the windows when you leave your room
- Remove your room card from the energy saver when you go out.

Save water

- Remember to turn off the water while you brush your teeth. Use the cups provided for this purpose.
- In the shower, turning off the water during soaping will save you nearly 30 liters of water.
- Keep your towels during your stay and ask not to change your sheets if you are staying several nights.

Waste sorting

- "1 ton of recycled paper keeps more than 16 trees standing." Prefer to dematerialize your invoice when you leave.
- Don't forget to leave the water bottles in the mini-bar empty, in the room, they are returnable.
- Drop off your used batteries at the reception.
- If you make any purchases, give us your cardboard and plastic packaging, we will take care of recycling it.

Buy Responsibly

- During your stay, remember to eat local
- Contribute to the local economy by consuming good seasonal products

Move Responsibly

- During your stay, choose to travel on foot or by bike, leave your car in the car park, and enjoy the magnificent landscapes
